

DİŞ HEKİMLİĞİ
ORAL DIAGNOSIS & RADIOLOGY
SLAYTLARI
2021-2022

İÇİNDEKİLER

1-) Anamnesis (Case History)	1
2-) Investigations in Dentistry.....	15
3-) Clinical Examination of Oral And Maxillofacial Structures.....	31
4-) Cardiovascular and Respiratory Diseases.....	51
5-) Diabetes Mellitus	75
6-) Hepatic Diseases	87
7-) Renal Diseases	99
8-) Thyroid Gland Diseases - Gastrointestinal Diseases - Neourogical Pshyco	103
9-) Blood Diseases	123
10-) Temporomandibular Joint (Tmj) and Imaging Methods	139
11-) Restorative Management in Primary Teeth.....	151
12-) Oral Mucosa	173
13-) Common Causes of Faulty Radiographs	207
14-) Object Localization in Dentistry.....	227
15-) Radioanatomy	237

16-) Principles of Radiographic Interpretation Decrypted.....	249
17-) Special Considerations in Dental Radiology.....	259
18-) Burn Out Effect & Various Radiographic Disturbances in Dental Structures	269
19-) Dental Anomalies	277
20-) Interpretation of Dental Caries and Periodontal Disease.....	303
21-) Periapical Inflammatory Lesions.....	309
22-) Özet Cardio-Resp	315
23-) Intraoral Radioanatomy	323
24-) Paranasal Sinuses and Radiographical Anatomy.....	333
25-) Soft Tissue Calcifications	347
26-) Osteochemonecrosis	361
